# YA-SS01

## Lightweight Stair Stretcher

### DESCRIPTION

The YA-SS01 is a light weight stair stretcher made of high strength aluminum alloy. It is widely used in the home, school, hospitals etc for those who can not move alone during emergency evacuation specially through stairs, which is very easy to store and transport with its light weight and folded structure.

### FEATURES

- Aluminium structure, lightweight and easy to clean.
- It is an ideal equipment for emergency staff to transfer patient to go up and down stair.
- Two stationary rear wheels enable the patients to be moved over most surfaces with minimal effort.
- The stretcher enhances the patient's safety during transport process because of it's 3pieces of restraint straps with quick-release buckle.
- Under the front of the stretcher, it has two flexible uplift rods.
- The stretcher can be folded and it saves the space in ambulance vehicle.

### STANDARD SPECIFICATION
