BLOOD DONOR (DIALYSIS) CHAIR

YA-DS-D10

The YA-DS-D10 blood donor (dialysis) chair is ergonomically designed, which can better provide patients with more comfortable environment, reduce the psychological pressure of patients, and make the process of blood donation or dialysis more comfortable. Ideal for dialysis centers, blood donation centers and nursing homes

CPR button

Manual CPR is behind the back section, which can quickly adjust the seat to the anti-shock position for emergency treatment

Hand control

Using the linak operator, the icons and buttons are clear and easy to operate

Arm rest

The cushioned armrest can move with the backboard when the back-section is being adjusted. The upper armrest can be rotated at any angle to facilitate the patient during treatment

Castors

Four φ 100 mm casters with individual locking system are included to facilitate the movement of the donor chair

overbed table

The small overbed table is on the left side of the chair, which can be rotated 360°, specially designed with sundries and water cup
